

# New School-Parsons School of Design Photography Focus Lecture audio recordings

Collection, PC070202

## About

Occurring annually between 1981 and 1989, the Focus Photography Workshops offered a week-long immersion in a specialized area of photography with a public lecture series running during the same period. The workshops were targeted toward non-degree students with advanced photography skills. This collection includes audio recordings from the Focus lectures by professionals in the fields of photojournalism, advertising and fashion photography.

## Collection Guide
